Governor General Trophy Medals to NB residents	Governor General	Aggregate of 4a, 4b, 4c

Prize money divided between classes proportionate to number of entries.

Match Director: Mark McMullin

Assistants: Laura & Nicole

NB COVID-19 Guidelines

Social distancing is encouraged. Masks and hand sanitizer will be available at the range.

Safety

Except when shooting, all rifles will have a chamber/blog flag inserted into the breach OR MUST have the bolt removed. Prior to removing a rifle from the firing point, it must be cleared by the Range Safety Officer before the chamber flag is inserted. No rifles to the line unless CRO gives permission.

Food & Drink

A light lunch will be provided. Anyone with food allergies is asked to mention it to the Match Director or range staff. Water will be provided at the range. Consumption of alcohol or drugs is not allowed on the range. Smoking on the firing line is not allowed.

Challenges & Protests

All shooting and scoring appeals must first be made to the Match Director/Assistant on the firing line. If these cannot be resolved, a formal protest may be directed to the Match Committee (MC). This can be done verbally to one of the MC members. At the most convenient time, the MC will meet in private and discuss the issue. The MC will make a decision and inform all parties involved and the Match Director. If necessary, all competitors will be informed.

The Match Committee will consist of a shooter from each province represented at the APM.

The decisions of the Match Committee will be final unless either the committee or the competitor who made the original protest places the protest before the Executive of the NB Fullbore Section.

Classes

There will be three classes of shooting: TR, FTR and F-Open. TR and FTR must be shot with 5.56mm or 7.62mm. TR must use metallic sights and max bullet weight of 156gr. F-Open must be less than 8mm. There must be three registered shooters in a class for prizes to be awarded.

Squadding

Each shooter will be assigned a relay number. You will remain on that relay on Saturday, and switch to the other relay on Sunday. Squadding within a relay will be pre-assigned where possible. F-class shooters may occasionally shoot alongside TR shooters, in which case TR scores are recorded equal to the F-Class score +1.

For the final stage of the Governor General's match, the top scoring shooters (based on aggregate of the GG Stage 1 and Stage 2) will be squadded on the last relay in order.

Targets

Electronic targets will be used for all matches and tablets are required by all shooters. Technical assistance will be available. DCRA targets will be used, except F-Class will shoot on the ICFRA target at 800 and 900 meters. At 300m, all shooters must raise their elevation 3MOA. The target is adjusted below center so that the sighting center is not shot out. Normal elevations will be applied at all other ranges.

Connect to WiFi network "**ShotMarker**"

Open any web browser and go to address: **192.168.100.1**

Scorecards & Scoring

Dedicated scorekeepers (competitors not shooting that relay) will be used and will be squadded in advance. All scorekeepers are responsible for recording scores fairly and accurately. Scorecards need to be reviewed and signed by both the shooter and the scorekeeper. Any discrepancies will be reviewed and dealt with as soon as possible. The signed scorecard is the official record.

E-Targets are to be cleared by either the Match Director or Assistant only. Targets will be cleared after the number of shots on the paper scorecards are confirmed with the electronic record. Any discrepancy noted when completing a string should attempt to be resolved prior to competitors leaving the firing line.

Spare clipboards, chairs, pens and tablets will be available for scorekeepers.

Tie Breaking

Shoot-offs will be used to break ties in the overall aggregate of the Prince of Wales and the Governor General's matches only. Ties in other matches will be determined by:

- 1) Highest score at the longest ranges
- 2) Countback of the shots on score starting with the last shot fired
- 3) Highest number of converted sighters

Foulers

On the first match of each day only, fouling shots will be allowed. Fouling shots must be shot into the backstop between targets. Any shots hitting the target will be scored.

Match Procedures

Shots that miss the target within 2-3 feet will be recorded as a zero and a message will be displayed in the e-target that a shot missed the target. The position of the shot will not be displayed.

If you shoot and nothing shows up on the e-target:

Call over the MD/Assistant; they will look for a cross-fire or a miss. A score of 0 is recorded. If the cross-fire/miss is not confirmed, the MD/Assistant may allow the competitor to take a provisional shot, which will be noted on the scorecard just above the 0. After the relay is over, the competitor may protest the 0 score and the Match Committee will investigate. Do not sign your scorecard if you intend to protest your score. At the Match Committee's discretion, the e-target record may be reviewed. The Match Committee may rule that the 0 score stands or that the provisional shot becomes on record instead.

Provisional shots are not limited to one per relay per shooter, but are at the sole discretion of the MD/Assistant. If the MD/Assistant determines a provisional shot is not warranted (e.g., if there is an obvious cross-fire on another target) and the competitor disagrees, they may protest the MD/Assistant's decision after the relay is over.

A competitor who misses the target with four consecutive shots, including sighters, must retire until the other competitor on the same target has finished. They may then complete their own series with no further sighters.

Coaching is not permitted.

Saturday June 25

8:00 am	Range Gate Open
8:30 am	Registration at RNBRA Trailer
9:30 am	Welcome & Safety Briefing at 300m firing point
10:00 am	Match 1: John Gibson Memorial Match 2+10 @ 300m
