

**ROYAL NEW BRUNSWICK RIFLE ASSOCIATION**  
**2021 ANNUAL PRIZE MEET**  
Batouche Range, 5CDSB Gagetown

MATCH DIRECTOR: Mark McMullin mkmcmul@nb.sympatico.ca

Pre- Registration Required  
[Registration Form](#)

**IMPORTANT NOTES**

**ALL DCRA SAFETY PROTOCOLS WILL BE OBSERVED**

Except when shooting, all rifles will have a chamber flag inserted into the breach OR MUST have the bolt removed. Prior to removing a rifle from the firing point, it must be cleared by the Range Safety Officer before the chamber flag is inserted. No rifles to the line unless CRO gives permission.

**EVENT FEES**

\$100 for APM; Jr Members \$55

One day fee is \$55

Individual Matches may be entered on a space-available basis for a \$15 fee.

Round Count: 118, Not including shoot-offs, practice shots or foulers.

**APPEALS**

All shooting and scoring appeals must first be made to the Safety Officer on the firing line. If these cannot be resolved, an appeal may be directed to the Match Committee. The Match Committee will consist of a shooter from each province represented at the APM.

**CLASSES**

There will be three classes of shooting - *TR, FTR and F-OPEN*. TR and FTR must be shot with 5.56 mm or 7.62 mm. TR must use metallic sights and max bullet weight of 156 gr. F-Open must be less than 8 mm. There must be three registered shooters in a class for prizes to be awarded.

**TIE BREAKING**

Shoot-offs will be used to break ties in the overall aggregate of the Prince of Wales and the Governor General's matches only. Ties in other Matches will be determined by: 1) Highest score at the longest ranges, 2) Countback of the shots on score starting with the last shot fired, 3) highest number of converted sighters.

**FOOD & DRINK**

Competitors are advised to bring snacks and/or lunches as well as drinks to the range for each day as the lunch period will not be long enough to leave the range. Water will be provided at the range.

## TARGETS

Electronic targets will be used for all matches and tablets are required by all shooters. Technical assistance will be available. DCRA targets will be used, except F-Class will shoot on the ICFRA target at 800 and 900 meters.

At 300m, all shooters must raise their elevation 3 MOA. The target is adjusted below center so that the sighting center is not shot out. Normal elevations will be applied at all other ranges.

On the first match of each day only, fouling shots will be allowed. Fouling shots must be shot into the backstop between targets. Any shots hitting the target will be scored.

E-targets are to be cleared by either the Match Director or the E-target Tech only. Targets will be cleared after the scorecards are reconciled to the electronic record. Any discrepancy noted when completing a string will be resolved before the scorecards are accepted. The signed scorecard becomes the official record once the scorecard is verified to match the electronic record and accepted.

## SCORECARDS AND SCORING

All participants are responsible for scoring their shooting partner fairly and accurately. Scorecards need to be reviewed and signed by both the shooter and the scorekeeper. Scores are not officially accepted until the paper copy is reconciled with the electronic record by stats personnel. Any discrepancies will be reviewed and dealt with before the match continues.
