## Running a Match on Batouche Range

Notes for Match Directors

### 1. At Range Control: Signing out keys

- Sign out key #26 Batouche Range & key #89 RNBRA Trailer.
- Sign out a red flag for range gate.
- Get a copy of Daily Range Standing Orders (DRSOs).
- No need to sign out rake, shovel, stretcher, etc. We have those in our trailer.

### 2. Prior to Commencing Fire, Get Permission to Go Live

- Look in the DRSOs, find our event and note the line number ("serial") of the event.
- If we're the only one listed, we are Serial 1.
- Contact Range Control by calling 422-3121.

**RNBRA:** "Range Control, this is One-Foxtrot, requesting permission to go live."

**Range Control:** "Go ahead."

**RNBRA:** We are Serial \_\_\_\_ (*the number we are on the DRSO*). OIC (*officer in command*) is \_\_\_\_ (*your name*). We will be firing \_\_\_\_ (*calibers we are approved for on DRSO, such as 556, 762 or 338*). The flags are up; the gate is closed and locked; we have our first aid and safety vehicles in place."

**Range Control:** "One-Foxtrot, (*they may read back the particulars you gave them*), is this correct?"

**RNBRA:** "Yes."

**Range Control:** "Permission to go live granted."

**RNBRA:** "Thank you."

### 3. When Finished Firing

- Contact Range Control by calling 422-3121.

**RNBRA:** "Range Control, this is One-Foxtrot; we are range safe."

**Range Control:** "We'll send a patrolman out to clear you"

**RNBRA:** "Thank you."

### 4. Prepare the Range Inspection Sheet

- Have it ready when the range patrolman arrives.
- Information needed to complete the sheet includes the number of rounds fired, the number of vehicles, which firing points were used and any damage or maintenance required.
